Leisuwash 350 Touchless Car Wash Equipment

Overview

Hangzhou Leisu committed to provide the high quality and smart automatic car wash system, Leisuwash 350 is the fastest car wash equipment in the market, with reliable and cost efficient performance, 3 years warranty with 90 days No-reason return policy ensure customer a non-risky purchase.

Functions

1. High pressure pre-wash for under chassis and wheels.

Equipped with a unique chassis and fan hub flush function, 80bar high pressure water can effectively remove dirt on chassis, body sides and wheels.

2. Smart 360 rotate arm, Flush car body 360° and spray various washing liquid.

Complete 360° rotating within 28 seconds, water saving 50%, electricity saving 60%, automatic detect the length of the vehicle, up to 85bar high pressure water can easily remove the dirt.

Spare parts

Our suppliers mostly come from world famous brands, Leisuwash 350 composed from more than 1000 parts, every spare parts have more than 3 years lifetime, even a gasket the material is stainless steel, good quality spare parts create good quality machine.

PLC

15KW

Siemens PLC with motors

German PEPPERL+FUCHS sensors

Name: High pressure hose
Brand: American PARKER
Advantage: Could bear 3225 PSI, super wear resisting

French Schneider low voltage electric

American Parker high pressure hose

American SPRAY nozzles

Swiss Contrinex sensors

Japanese NSK bearings

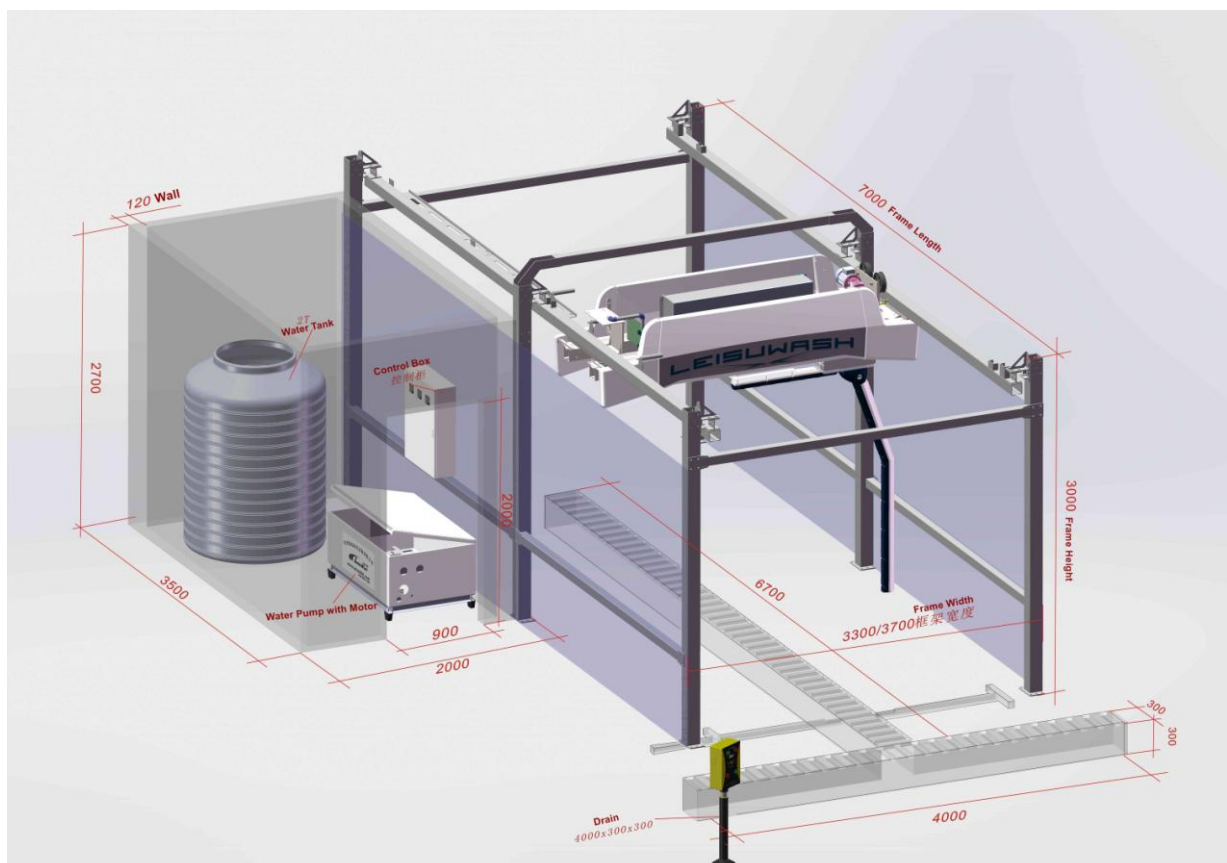

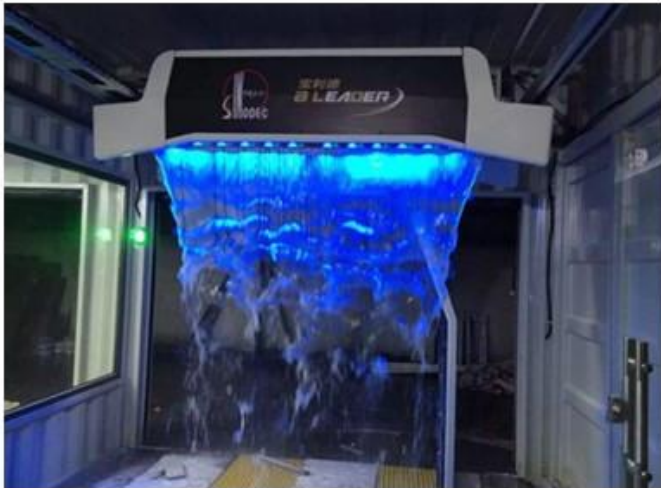

Japanese 304 stainless steel pipes

American UL standard electric wires

304 stainless steel gasket

Buy Optional OverGlow Hi-Gloss Application System for 350 with colorful LED light will attract drivers off street and onto your wash bay !

Technical Parameters:

Main machine size	3000mm*1050mm*750mm
Water pump size	1250mm*700mm*600mm
Rail length	7000mm
Min Mounting Dimensions (length*width*height)	7100 mm*3300mm*3150mm
Max car wash size (length*width*height)	5600mm*2600mm*2000mm
Power Requirements	380V/15Kw, 50Hz/60Hz
Air switch	80A air switch
Water pump motor power	15Kw
Longitudinal motor power	0.37Kw stepless frequency control
Transverse motor power	0.4Kw servo drive system
Rotary motor power	0.4Kw servo drive system
Central processor	Industrial PLC dual core system
Drive System	Servo drive system
Detection system	Ultrasonic sensor
Sensor System	Ultrasound+ Absolute value of the digital encoder
Speed	360 wash 28 seconds, energy saving 60%
Pre-soak consumption	20~50ML/Car
Water consumption	100L/Car
Electricity consumption	0.4 KW·H/Car

Packing details:

Polywood case for main machine: 3160*1265*1255mm

Polywood case for water pump system: 1350*890*640mm

Rails: 2pcs (7 meters)

Frames: 13pcs

Shipping weight: 1500kgs,

Shipping volume: 8CBM.

Delivery period:

15~20 days

Payment terms:

T/T or L/C

Shipping terms:

EXW, FOB or CIF

Cooperated International Brands:

(American Cat Pump for option)
